BARBLESS SAFE-TWIST

Barbless Safe-Twist wire is wildlife-friendly wire for use in conjunction with livestock farm fencing. Used as a top and bottom wire instead of barbed wire on four and five line barbed wire fences.

Barbless Safe-Twist:

- Meets the critical farming needs of cattle and livestock containment
- Provides a safer environment for wildlife & endangered animals
- Installation is no different to traditional high tensile barbed wire and tension

BARBLESS SAFE-TWIST top and bottom wire

Manufactured in Australia from **2 x 1.8mm high tensile, heavy galvanised** wire in a continuous length - no joins. Supplied on wooden spools.
